Description

A descriptive account of the flowering plants and ferns native and naturalised in Kenya, Tanzania and Uganda, together with information on exotic ornamental and crop plants. At least one species per genus is illustrated, and the bibliography and synonymy are sufficiently detailed to explain the nomenclature and taxonomic circumscriptions within a broad regional context. The Flora is a part work published in fascicles (paperback).

FTEA Lamiaceae is the 250th part of the Flora published, in 2009, Kew's 250th anniversary year.
