### Market / Audience

Plant taxonomists, students, plant scientists, people working with floras or field guides.

### Key Selling Points

- Clear lay-out, easy to use
- Illustrations are simple and clear and accompany each description
- Comprehensive coverage (4,100 terms)
- Illustrations at the end of the book comparing similar terms

### Description

This plant glossary includes all descriptive terms used in floras, plant field guides and monographs. This is an essential companion for anyone working with plant descriptions, plant identification keys, floras, monographs and field guides. 4,100 botanical terms are described with accompanying illustrations.

### Author information

**Henk J Beentje** is a botanist with considerable field experience in Africa and Madagascar. He has published titles on Kenyan trees, Zanzibari forests and Madagascar palms, as well as on African vegetation in general and plant glossaries. His main interests are in regional Floras, field guide production and conservation. He is currently editor of the *Flora of Tropical East Africa* at the Royal Botanic Gardens, Kew.
