Market / Audience

Plant scientists, students, conservation workers, eco-tourists.

Key Selling Points

- This is the first field guide dealing with the seed plants of the area
- Invaluable identification tool to the most commonly encountered plants in the region
- Fully illustrated throughout with colour photographs showing key features to aid identification by field workers without an academic botanical training.

Description

This is the first field guide dealing with the seed plants of the lowlands of East Sabah, Malaysia, and features the 84 most commonly encountered families in the low land rainforest of Danum Valley, Maliau Basin and Imbak Canyon. Plant families are presented alphabetically, and each carries a full description, with field characters and descriptions of the key genera. Each family is illustrated with full colour photographic images.

This is an easy to use guide aimed at students, conservation workers, scientists and the increasing numbers of eco-tourists in Sabah, Malaysia, and will be an invaluable identification tool both in the field and in the herbarium.

Author information

Rogier de Kok is the Assistant Keeper of regional teams in the Herbarium at Kew. **Tim Utteridge** is a specialist in the flora of South East Asian based in the Herbarium at Kew.
