Habitats: rainforests
Classroom activity pack

This pack contains a series of activities for you to complete with your class both before and after your visit to Kew.

You may choose to do all the activities or just select one. Post-visit activities are intended to build on the learning from the educational session at Kew. Many of the resources can be used on a whiteboard or can be printed.
Thank you for booking the Habitats: rainforest education session at Kew. You can use the pre-visit activity to support your pupils’ learning.

Ahead of your visit, your pupils could answer the question below. They can tell us about their answers when they come to Kew. This activity enables you to assess your pupils’ current understanding of plant and animal interaction.

**Question:**
In what ways do plants and animals rely on each other?

You can encourage your pupils to use this **key vocabulary:**
Depend, rely, survive, seed dispersal, pollination, nutrients, shelter, oxygen, food, relationship, interaction.
In what ways do plants and animals rely on each other? Try to use some of this vocabulary in your answer.

- food
- depend
- interaction
- rely
- relationship
- shelter
- seed dispersal
- survive
- nutrients
- pollination
- oxygen
