

Tropical Plant Identification Course 2019

Royal Botanic Gardens, Kew

The **Royal Botanic Gardens, Kew** is organizing a two-week Tropical Plant Identification Course from **13 – 24 May 2019**. The course has been designed for conservation and environment professionals, and is also suitable for graduate students, ethnobotanists, ecologists and zoologists.

Programme

Taught by Kew's botanists, all with an in-depth knowledge of the plants and habitats of the tropics, the course will give participants an overview of 70 of the most commonly encountered tropical plant families, as well as an introduction to plant morphology and identification tools. Through short illustrated lectures, and extensive hands-on practical sessions, Kew's botanists will demonstrate the key characters for each family, sharing their expert tips for identification. Students will join identification sessions focused on different regions in the tropics; a visit to the living collections will provide a chance to apply this knowledge 'in the field'.

Duration and location

The course runs for two weeks from 9 – 5:30 every day (except weekends): classes are taught in Kew's Herbarium, Library, Art & Archives (situated next to the Main Gate (Elizabeth Gate) to the Gardens); about 15 minutes' walk from Kew Gardens Underground station (District Line/London Overground) and 10 minutes' walk from Kew Bridge station (South Western Railway).

Course costs

The course fee for non-Kew staff is £800: this covers teaching costs and course materials. Funds for travel to Kew and subsistence must be sought elsewhere.

Applications for a place on the course should be made using the application form overleaf. Further information and copies of this poster can be obtained from the course coordinators: Anna Trias-Blasi (a.triasblasi@kew.org) or Tim Utteridge (t.utteridge@kew.org).

APPLICANT INFORMATION

Please keep to one page: additional letters etc., can be attached or submitted electronically.

Your details

Email address	
Family name	
First name (s)	
Nationality	

Your curriculum vitae

Academic background	
Research interests and experiences	

Your employment

Current position within your organisation	
Name and address of your institution	
Telephone (include international code)	

Your promoter (All applications must be signed)

Name of your manager/research group leader/promoter	
Promoter's signature and date	
Institution name and address	
E-mail address	

Your motivation (Please explain why you wish to attend this course)
